Lovey Mishra

Lucknow, India | 6306207252 | loveymishra60@gmail.com | linkedin.com/in/lovey-mishra | github.com/loveymishra

Professional Summary

Artificial Intelligence graduate with strong foundations in machine learning algorithms, neural networks, deep learning, NLP, and computer vision. Skilled at explaining technical concepts in structured, beginner-friendly language and connecting theory with practical Python examples. Experienced in model training, evaluation, hyperparameter tuning, and transformer research, with an interest in practical AI/ML instruction and helping learners resolve conceptual doubts.

Technical Skills

Programming Languages: Python, SQL, C, Java (Android Studio)

Computer Science: Programming Fundamentals, Object-Oriented Programming, DBMS, Data Structures, Algorithms

Machine Learning & Deep Learning: ML Algorithms, Neural Networks, Model Evaluation, TensorFlow, PyTorch, Keras, Scikit-learn

Data Science & Tools: NumPy, Pandas, Matplotlib, OpenCV, Hugging Face Transformers, Jupyter, Google Colab, Git, Docker, FastAPI, Streamlit

Education

Amity University — Lucknow, India

Bachelor of Technology in Artificial Intelligence — *Sep 2022 – May 2026*

- **Relevant Coursework:** Machine Learning, Deep Learning, Data Science, NLP, Computer Vision, Neural Networks

Experience

Cognizant — Pune, India

GenC Associate Engineer — *Mar 2026 – Jun 2026*

- Used GitHub Copilot to support code understanding, development, and debugging across enterprise workflows.
- Supported ERP SAP ATTP serialization, track-and-trace, and process integration in regulated production environments.
- Collaborated with cross-functional teams on IoT system integration, debugging, and end-to-end solution validation.

ICT4SD International Conference — Hybrid, India

Research Assistant — *Aug 2025 – Mar 2026*

- Implemented decentralized Mini-GPT training through multi-notebook federated aggregation on Google Colab, applying transformer and model-training concepts in practice.
- Designed a federated workflow using Google Drive synchronization to train separate data shards and merge checkpoints through weighted federated averaging.
- Paper selected for publication at ICT4SD; awarded **3rd Prize** and an official **Certificate of Research Excellence** from Amity University.

Certifications & Achievements

- **Certificate of Research Excellence, Amity University** – Recognized for presenting and publishing research at the ICT4SD International Conference and contributing to decentralized Generative AI research.
- **IBM Data Science Professional Certificate** – Completed an intensive program covering Python, SQL, data preprocessing, statistical analysis, machine learning, data visualization, Jupyter Notebooks, IBM Watson Studio, and cloud-integrated data science pipelines.
- **Google Cloud Platform (NPTEL Certified)** – Completed comprehensive coursework in cloud computing, covering cloud architecture, deployment models, and cloud services.
